SUPERIOR SUN PROTECTION

FORMULATED FOR ALL SKIN TYPES

U.V. protect SPF 30 50ml

This broad spectrum UVA / UVB sun protection factor is highly innovative as it assists in providing the skin with antioxidants in addition to UV protection.

DIRECTIONS FOR USE

Should be used during the weeks receiving pHformula skin resurfacing treatments. Continue use for some weeks after completion of treatment course, until skin has fully recovered or as prescribed by the pH skin specialist. Use daily. Apply and allow to absorb for 20 minutes prior to daytime exposure. Reapply after two hours of sun exposure and repeat every two hours as needed. Reducing repeated application will lower the level of protection significantly. Avoid prolonged sun exposure, even when using a sunscreen product.

BENEFITS

- Nourishing daily broad-spectrum UV protection.
- Leaves the skin well hydrated with a matte finish.
- Rich in anti-oxidants which help to combat free radicals.
- Helps prevent DNA damage.
- Alcohol free, paraben free, and non-comedogenic.

U.V. protect SPF 50+ 50ml

Provides high sun protection, yet is comfortable and gentle on the skin. This unique formula especially for the face includes beneficial ingredients to help prevent skin dryness. Ideal to be applied during skin resurfacing procedures or outdoor activities and sports.

DIRECTIONS FOR USE

Daily use is recommended during the professional pHformula skin resurfacing program. Apply and allow to absorb 20 minutes prior to daytime exposure. Reapply after two hours of sun exposure and repeat every two to three hours as needed. Continue use of the U.V. protect until skin has fully recovered or as prescribed by your pHformula skin specialist. Avoid prolonged sun exposure during the professional pHformula skin resurfacing program even when using sun protection.

BENEFITS

- Provides high broad-spectrum UV protection.
- Helps prevent skin dryness.
- Rich in anti-oxidants which help to combat free radicals.
- Helps prevent DNA damage.
- Alcohol free, paraben free, and non-comedogenic.

H.A.N.D. perfection cream 50ml

The hands are one of the first places where we see the signs of ageing. Extrinsic ageing of the hands involves alterations in pigmentation, wrinkling, and texture as a result of chronic ultraviolet and environmental exposures. The multifunctional hand perfection cream is the ideal cream, to reverse visible signs of ageing and to retain a healthy, soft and smooth skin.

DIRECTIONS FOR USE

Repetitive and frequent hand washing increases skin dryness and roughness. Use immediately after each hand wash to treat, protect and prevent skin dryness.

BENEFITS

- Prevents and visibly reduces the signs of skin ageing.
- Provides intensive moisturising.
- Assists in treating photo-aged skin.
